

REMARKS

Upon filing this application, a revised specification was inadvertently presented as a translation of the PCT application into English. A literal translation of the PCT application was then filed on February 14, 2006, in response to the Notification of Missing Requirements. Applicant presents this preliminary amendment, which shows the amendments made between the literal translation of the application and the revised specification filed with the application papers, which was inadvertently missing from the documents previously filed. Examination on the merits is requested on the basis of the amendments presented herein.

Respectfully submitted,

Date: 5/22/07
